Plant a Colour

Use your Gro Box spacer to give each seed its growing space.

Little growers, big discoveries

15 MIN | GRO BOX AND SEED SPACING | AGES 5+ WITH AN ADULT

Grab your kit

A prepared Gro Box, its colour-coded spacer and instructions, a listed seed packet, water and a plant label.

Your discovery mission

1. Choose a vegetable from the list on your spacer. Find its colour and say or write it down.
2. Place the spacer as shown in the Gro Box instructions. Find the holes that match your vegetable's colour.
3. Follow the seed packet and Gro Box instructions for sowing depth and seed numbers. Plant through the matching holes and remove the spacer as directed.
4. Label your planting with its name and date. Water gently as directed and make a drawing showing where you planted.

What did you discover?

My vegetable: _____
Its spacer colour: _____ Planting date: _____

Draw your discovery

Let's wonder...

Why do you think different vegetables need different spaces between them?

NEXT ADVENTURE

Choose another vegetable from the spacer list and compare its pattern of holes with the first.

Ask an adult to help read the instructions. Wash hands after handling seeds and growing material.
